

DepotPac® Product Mixing Instructions

1 To mix DepotPac® products you will need one Pac® brand pouch, color matched bottle and a properly labeled Depot container.

2 To start, fill the properly labeled Depot container with cold water.

3 Then, pour in contents of the green CP105. Close the Depot container and return it to its proper shelf in the utility closet.

4 To dispense, fill the green quart bottle with pre-mixed solution.

Rinse containers before refilling.
