

Germicidal Cleaner

broad spectrum disinfectant

CorrectPac's Germicidal Cleaner is a pre-measured, EPA registered disinfectant included on List N for use against SARS-CoV-2, as well as a variety of additional pathogens such as Staph, Salmonella and Pseudomonas, MRSA, Influenza A, Avian Influenza, HIV-1 and fungi. This one-step germicidal cleaner is designed for general cleaning, disinfecting, deodorizing and controlling mold and mildew on all hard, non-porous surfaces. Simply mix one Pac® brand pouch per container and you are ready to clean and disinfect.

Effective on any resilient surface including floors, walls, metal surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets.

pH Neutral formulation won't damage floor finish and doesn't fog or leave film.

Pre-measured solutions for total operational control and cost savings

- ✓ Simple to mix
- ✓ Easily control inventory
- ✓ Accurately budget
- ✓ Proven performance

Simply fill container to the proper level with water and add the contents of one pre-measured Pac® brand pouch for the correct dilution every time.

No. CP201 Ea. Pac makes 1 gallon

No. CP202 Ea. Pac makes 2 gallons

No. CP204 Ea. Pac makes 4 gallons

No. CP205 Ea. Pac makes 5 gallons

No. CP264 Ea. Pac makes 6.5 gallons

EPA Reg. No. 10324-155-8722

Say goodbye to expensive bulk products, ready-to-use spray solutions, and time-wasting trips to supply areas to refill solution. For above the floor cleaning, fill the color-matched re-usable Germicidal Cleaner spray bottle at any water source, pour in the contents of one Pac® brand pouch and you are ready to go. Mopping floors? Choose any one of our pre-measured sizes to fit your cleaning needs.
