### Dental Prosthetics

From full dentures to simple mouth guards, VCE dental prosthetics are made to the most exacting standards.

Working to provide the care and attention each restoration requires, VCE constructs prosthetics that will provide years of service and comfort. Once constructed to your instructions, the VCE Dental Lab continues to work with you through the final fitting .

So whether your patient needs a simple bite guard, complex partial or full dentures, VCE 's Dental Lab is dedicated to quality patient care with solutions for even the most challenging cases.

**VCE's attention to detail and commitment to quality are what set us apart, making our first impression a lasting impression.**

## Virginia Correctional Enterprise's Dental Lab

The VCE Dental lab's excellence is achieved through high quality craftsmanship, continuing education for our offender staff, and the latest in dental lab technologies.

**VCE's attention to detail and commitment to quality are what set us apart, making our first impression a lasting impression.**

How much does this program cost tax payers? Not a dime. VCE is a self-supporting agency established by the general assembly over 75 years ago to employ offenders in Virginia's correctional system. Our program is successful in helping people make the transition from a dependent to a contributor, reducing the tax burden necessary to run the correctional system.

We parallel our enterprises as closely as possible to those in the private sector. Offenders are interviewed, reviewed and earn compensation. They get up in the morning to go to work, earn advancement and develop the concepts of teamwork and quality workmanship.

The more you utilize VCE's products and services, the more offenders we can employ and train. But while all this is a very worthwhile mission, we know we have to earn your business by offering exceptional service, making durable products of the highest quality at a fair price and delivering on time.
