

# SOFT SEATING Lounge Collection by OFGO Studio

The UNIFY collection is a multi-use furniture series which allows for the creation of mixed-use space.

With one collection, UNIFY offers the ability to create open, semi-private, or focused based configurations which can integrate seamlessly with other OFGO STUDIO product offerings.

Influenced by the future generation of workers, UNIFY promotes environments for self-expression and rapid-fire collaboration.

Aptly named, UNIFY offers a collection of modular units that encourage unity and collaboration. Modular units are available in straight or curved modules, and are offered in three back heights for varying levels of privacy – 32.5”, 47”, and 53”.

An integrated shelf feature provides an additional workspace surface to create a dynamic collaborative space while maximizing floor real estate.

Additional options include a rotating tablet with a 360 degree turning radius as well as a multitude of integrated power module positioning options that allow users to unwind and recharge.
