

SWAY Lounge Seating by KI/OEI

Experience the personalized comfort of Sway. The first of its kind, Sway lounge seating breaks free from conventional movement and enables dynamic orbital motion. Move front to back, side to side and everywhere in between with a smooth 360-degree swivel. Instead of a lounge chair that forces you to adapt, Sway adapts to you, responding to your natural body movements to provide superior comfort.

W31.5" D30" H32.5"

Sofa, Loveseat and Lounge Chair

Today's lounge wears many hats, from lively conversation space to peaceful respite, but none of them benefit from furniture that intimidates your visitors. The Jessa seating line creates an approachable space that is an extension of your aesthetic, be it classic or contemporary.

A linear design and slender profile let Jessa Loveseats and Sofas provide generous, comfortable seating in a modest footprint. The furniture's subtle curves and minimal flourishes also serve as a canvas for its flawless tailoring.

Even with its spare design, Jessa leaves room for options. Coordinating wood arm caps add visual interest to any piece in the line. Additionally, a tablet arm can be specified on the Lounge Chair to act as an occasional

table or impromptu writing surface. Casters used in place of the glides encourage visitors to think outside of standard seating arrangements and make the space work for them.

When you provide a lounge that caters to your visitor's needs, you can expect them to return again and again. A durable wood frame and wire spring construction ensure that Jessa will continue to meet your expectations regardless of how popular the space becomes.

With Jessa's relatable, polished design and thoughtful options, your lounge furniture will always make a statement that complements your guests'. Not one that drowns them out.

Jessa offers a plush 31.5" by 30" seat made ultra comfortable by a reversible cushion of polyurethane foam.

The clean lines of Jessa's upholstered sides and back give the Lounge Chair a polished look.

The Lounge Chair can be specified with a tablet arm in laminate finishes to match or coordinate with the wood arm caps.

Optional casters make moving the furniture for cleaning, maintenance, or use effortless.

SUAVÉ Lounge Collection by KI/OEI

Don't be fooled by Suavé's informal appearance. Despite its casual façade, this furniture takes its job seriously. The deep seat and natural angle between the seat and back provide a comfortable sit in a slightly reclined position. Adding to that comfort is high-density foam that provides lasting support while maintaining the furniture's clean lines.

Lounges are natural spaces for collaboration. Should inspiration strike, Suavé offers thoughtful options to help incubate ideas the moment they appear. Lounge chairs with tablet arms are perfect for taking notes, and tables with markerboard tops make supplying your own paper optional.

Whether you add Suavé to healthcare, educational, or business settings, you will find it's informal style encourages relaxed and supportive communication. Who couldn't benefit from a little more of that?

W78" D33.5" H28.25"

W36" D36" H15"

Tablet Arm - transforms a lounge chair into an impromptu desk when the need arises.

Sled Base - provides Mid-Century Modern appeal and makes any of the furniture easier to maneuver.

Wood Armcap & Wood Leg - create a warmer look for Contemporary spaces that use natural accents.

Wide Panel Arm - delivers on the line's promise of casual comfort, with a height that allows you to sit the way you like.

Markerboard Tabletop - gives you permission to make the most of it when creativity strikes without leaving a lasting mark.

SHIBBY Lounge Collection by KI/OEI

DESIGNED TO DEFINE

Functional. Flexible. Fun. Say hello to Shibby, the modular seating collection that lets you mix laminate, upholstery and metal elements to find your own version of modern cool.

The Shibby seating family includes lounge chairs, sofas, tables, ottomans, benches, wedges and more that can be used as individual pieces or combined for one-of-a-kind creations. Its low profile allows you to build niches that subtly encourage interaction instead of rigidly walling off space.

With Shibby you can break down barriers and build centers for activity instead. Easily frame open spaces and transform them on your own terms with your unique blend of imagination, style and sophistication. Shibby gives you the freedom to bring your vision to life. Its clean lines and subtle curves create a low-slung modern aesthetic leaving space for your creativity to flow.
