VIRGINIA CORRECTIONAL ENTERPRISES

To our valued customers,

We deeply appreciate your support of our mission to provide on-the-job training and work development programs for inmates to strengthen their future employment opportunities. Helping inmates prepare for successful release improves long-term public safety in the Commonwealth, creating safer communities.

VCE continually consults with our vendor partners to ensure that established manufacturing certifications are met. This allows VCE to produce quality items and services made in Virginia at competitive prices with industry-leading warranties.

The pride that our entire team brings to this mission is evident in every product that we manufacture and every service that we deliver.

On behalf of all of the inmates and staff at Virginia Correctional Enterprises, thank you!

Marie M. Vargo, CEO

MISSION: To strengthen future employment opportunities and marketable skills for inmates through on-the-job training and work development programs, supported by the production and delivery of quality products and services to our customers.

VISION: Creating promising futures and producing quality products.

About Us

Virginia Correctional Enterprises is a self-supporting agency established by the Virginia General Assembly over 85 years ago to employ and train inmates in the Virginia Department of Corrections. VCE's job-training programs help Virginia to post among the lowest reincarceration rates in the country.

VCE products are constructed with pride and established industry certifications and standards, while generating the hard and soft skills for our inmate staff to reenter into society and gain meaningful employment.

VCE job training programs are voluntary and inmates apply and interview to be accepted. The job skills and experience gained from VCE programs provides inmates a greater chance of finding a job after release.

Preparing for a Successful Reentry

Virginia Correctional Enterprises provides work experience that mirrors private-sector business environments.

Soft Skills

On-the-job training and workshops teach inmates how to excel at communication, teamwork, time management, accountability, lean practices and responsibility.

Technical Skills

Inmates learn specialized skills for modern industries, from equipment operations to AutoCAD to maintenance solutions.

Apprenticeships & Industry/Vendor Certifications

The job skills and experience gained from VCE programs enable inmates a greater chance of finding a job after release. These opportunities include registered apprenticeship programs, such as Warehouse Logistics and Materials Handler, and industry/vendor certification programs, such as the Sherwin Williams Protective Coating Applicator Program.

Janitorial Products

- Virginia Correctional Enterprises is partnered with PortionPac Corporation to bring you cleaning products to meet all your needs.
- Maximum concentrates conserve energy in manufacturing, shipping and distribution.
- Water is not added until the product is used, reducing the volume and weight of the concentrate.
- Pre-measured solutions improve performance through more accurate dilutions and also reduce the amount of solution disposed of in the waste stream.
- Concentrates come in pre-measured recyclable Pacs custom fit to the volume of the concentrate needed reducing the amount of waste.
- Case/Carton size is reduced, and more product can fit in less room, saving on cardboard and other packaging materials.
- Re-usable bottles made of recycled material are color-coded to match the appropriate CorrectPac product.
