

VEHICLE SECURITY ENHANCEMENT SOLUTIONS

For Inmate Transport & Law Enforcement/Emergency Vehicles

Fabrication & Installation of Security Enhancements for...

- **PASSENGER/CARGO VANS**
- **TRUCKS**
- **SEDANS**
- **SUVS**

VEHICLE SECURITY

All of these metal products are professionally finished with an electrostatically applied, heat sealed epoxy powder coat.

WINDOW GUARDS

- Window guards are fabricated from 14 gauge steel with precision plasma cut 1" x 1/2" aperture.
- Window guards are sized to fit all current vehicle window sizes and shapes.

DOOR PANEL COVERS

- Door panel covers are fabricated from a single piece of 14 gauge steel.
- These covers eliminate all handles, locks, window mechanisms and covers the entire inside surface of the door.
- Full door and window functions are retained and controlled from the driver area.

INMATE SEATING AND FLOOR PANS

- ABS plastic interiors are waterproof and can easily be cleaned when needed.
- Seat belts ensure the safety of the rear passengers and utilize OEM seat belt anchor points.

SECURITY PARTITION

- These partitions are welded to a 1 1/2" x 1 1/2" steel tube frame and the whole unit is securely fastened to the vehicle's body with tamper proof security hardware.
- Our partitions are sized to fit most any vehicle's interior.
- Lexan shields can be added over the aperture area of the front partitions to protect the driver/passenger area from foreign objects and liquid contamination.
- Foot cubbies area integrated into the front partition design for rear seat passengers.

VEHICLE SECURITY

All of these metal products are professionally finished with an electrostatically applied, heat sealed epoxy powder coat.

MEDICAL TRANSPORT CONVERSION

- Large cargo vans can be converted to a medical transport eliminating the need for constant ambulance transportation.
- Custom installation of a state-of-the-art power assisted Stryker gurney lift, makes for easy loading and unloading inmates of all sizes.
- Separate jumpseat is available for ride along officer in cargo cabin.

- Front and rear sections offer separate inmate containment and the front section can also be utilized for up to 16 square feet of storage space.
- These insert units can seat up to 11 inmates (8 in the rear section and 4 in the front section).
- A center locking divider in the front section allows for solitary containment of a single inmate passenger.
- Seatbelts are provided for all inmate inserts and are ventilated through the van's HVAC system or via an optional auxiliary unit.

HIGH SECURITY INSERTS

VEHICLE SECURITY

All of these metal products are professionally finished with an electrostatically applied, heat sealed epoxy powder coat.

K-9 ENCLOSURES

- Our enclosures are designed with plenty of space for loading and unloading your canine partner and can be configured for the driver or passenger side entry.
- All OEM surfaces are protected from potential canine damage.

1/2 MAN - 1/2 DOG ENCLOSURE

- This specialty enclosure utilizes the same features as our K9 enclosures such as the durable window guards, door panels and partitions that are safe and comfortable for all riders.
- Safety middle partition escape panel is installed for emergencies.

HUMAN SIDE

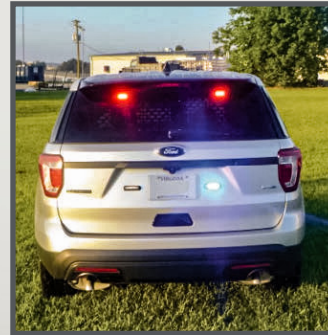

K9 SIDE

OTHER PRODUCTS & SERVICES

FULL LIGHTING AND SIGNAL SOLUTIONS

Add a full range of lighting and signaling products to your vehicle. Lightbars, dash and deck lighting, LED lighting, grille mounts, surface mounts, visor lights, compartment lighting, message boards, sirens, speaker and control systems.

K-9 ENCLOSURES

- Let your vehicle stand out in public with custom graphics and vehicle wraps.
- From simple stripes and lettering to more intricate layouts and compositions, we can help your vehicle fleet be highly visible while on the road or just parked in town.
- Screen printed vinyl graphics can be applied to (and eventually removed from) your vehicle without damage to the metal or plastic surfaces.

OTHER PRODUCTS & SERVICES

- Professional tinting film applied to your vehicle glass.
- A variety of opacities are available to suit your needs.

SECURE STORAGE & CENTER CONSOLES

- Fully integrated secure storage units and center consoles are available to meet operational needs for drivers and front seat passengers.
- Secure valuable items in a center locked box.
- Custom consoles let you operate all lighting and warning signals on your vehicle with control panels that are right at your fingertips.

VCE MISSION STATEMENT

THE MISSION OF VIRGINIA CORRECTIONAL ENTERPRISES,
AS AN AGENCY OF THE DEPARTMENT OF CORRECTIONS,
IS A SELF-SUSTAINING PROGRAM THAT PROVIDES
JOBS AND WORK SKILLS TO ENHANCE
EMPLOYMENT OPPORTUNITIES FOR
RETURNING CITIZENS.

ABOUT VCE

VCE offers a variety of vehicle security enhancement products to help meet the demands of law enforcement. Whether you are looking to enhance your current inmate or K-9 transportation, or are in need of clothing, log or visitation books, secure storage, and more, VCE can be your one stop for all these law enforcement needs.

Your purchase buys more than a quality product, it also provides a job program that offers marketable employment skills for inmates in the Virginia Department of Corrections. All revenues generated from the sales of VCE products go towards supporting the inmate job program. The employment, skills training and experience that inmates receive from these programs helps them secure successful employment upon release. Employment is a major element for successful re-entry into society and greatly reduces the rate of recidivism.

All job programs and training at VCE are funded through sales of VCE products at no additional expenditure of tax dollars. Additionally, wages earned by inmates help them pay court fines, victim restitution and child support.

Our conversions and product lines include...
